

Series MC filters

Ports G1/4, G3/8 and G1/2

Modular

Metal bowl and bayonet-type mounting

Filters with filtering elements which are different from the standard ones, as well as further drainings of condensate can be ordered on request (see the coding example).

Series MC filters are available with ports G1/4, G3/8 and G1/2.

Bowls are made of metal with a transparent sight glass and have a condensate drain valve which can provide either a manual or semi-automatic function.
